**Note 1: Corporate information**

Grameen Foundation for Social Impact (the Company) is a section 8 company domiciled in India and incorporated on 23rd August, 2012 under the provisions of the then Companies Act, 1956 (now 2013) with Limited Liability without addition of the word "Limited" or "Private Limited" to its name. Grameen Foundation for Social Impact is formed to undertake activities and services that impact the lives of the poor, specially women.

**Significant accounting policies**

**1.01 Basis of accounting and preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with accounting standards notified under section 133 of Companies Act 2013, read with paragraph 7 of the Companies (Accounts) Rules 2014. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year. The assets and liabilities have been classified as current and noncurrent as per the operating cycle criteria set out in the schedule III to the Companies Act, 2013.

**1.02 Use of estimates**

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

**1.03 Cash and cash equivalents (for purposes of Cash Flow Statement)**

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

**1.04 Property, plant & equipment**

Tangible Assets are stated at cost less accumulated depreciation and impairment loss, if any. All significant cost incidentals to acquisition and installation up to the date of commissioning are capitalized. Intangible Assets are stated at cost less accumulated amortization and impairment loss, if any.

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized in accordance with Accounting Standard - 28 "Impairment of Assets", for the amount by which the asset's carrying amount exceeds its recoverable amount as on the carrying date. The recoverable amount is higher of the asset's fair value minus cost to sell vis-a-vis value in use. For the purpose of impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flow.

**1.05 Depreciation and amortisation**

The Company has provided depreciation on the straight-line method on the fixed asset over its useful lives as provided in Schedule II of the Companies Act, 2013 or as re-assessed by the Company.

Intangible assets are amortised over the useful economic life of the assets. The amortisation period and amortisation methods are reviewed each year at balance sheet date.

*Brahmikha  
Guruji*

Notes forming part of the financial statements

*All amount in Indian Rupees (Thousands) unless specified otherwise*

**1.06 Investments**

Long term investments are valued at their cost including brokerage, fees and duty. However if in the opinion of the management there is decline in the value of the investments, other than temporary, the carrying amount of investments is reduced recognizing the decline in value of each such investment.

**1.07 Revenue recognition**

Corpus grants received specifically for corpus of the company is shown under Capital Reserve in Balance sheet. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. In addition the following criteria must also be met before revenue is recognized:

-Operational grants are accounted on the date of receipt but revenue is recognized as lower of grants received or expenses incurred. In case of grants received is lower than actual expenses incurred, revenue is recognized to the extent of expenses incurred. All Grants and contributions received during the year are towards the objective of the company.

- Interest income on Saving Bank accounts and fixed deposit are accounted on accrual basis.

**1.08 Capital asset fund**

Assets purchased out of grants received for a specific purpose are expensed in the year of purchase. These assets are also capitalized with the creation of a corresponding capital asset fund.

Depreciation during the year on assets acquired out of grants received for a specific purpose is transferred to the capital asset fund.

**1.09 Employee Benefits**

**Gratuity** - Gratuity is a post employment defined benefit plan. The liability recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit obligation is calculated annually at the year end by an independent actuary using the projected unit credit method. Actuarial gains and losses are recognized as an income or expense in the Income and Expenditure Account in the year in which they arise.

**Leave Encashment** - Liability in respect of Leave Encashment is provided for encashable leave in accordance with the HR policies of the Company.

**1.10 Foreign currency transaction and translation**

**Initial recognition**

Transactions in foreign currencies entered into by the company are accounted at the exchange rates prevailing on the date of the transaction or at rates that are closely approximate to the date of the transaction.

**Treatment of exchange differences**

Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the company are recognized as income or expenses in the statement of Profit and Loss.

**Subsequent recognition**

The outstanding balances of the foreign transactions are reinstated based upon the rate as per RBI as on last day of the financials.

**1.11 Taxes on income**

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets is recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are reviewed at each Balance Sheet date for their realisability. As a matter of prudence, deferred tax asset, mainly on account of carry forward loss, have not been accounted for in the books, since it is not virtually certain, whether the Company will be able to take benefit of such losses.

*Surya  
Guruji S  
Pratiksha*

Notes forming part of the financial statements

All amount in Indian Rupees (Thousands) unless specified otherwise

**1.12 Earnings per share**

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

**1.13 Provisions and contingencies**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Actual results could differ from those estimates. Contingent liabilities are disclosed in the Notes.
